

# Electripack Inc. Capabilities Statement

## Company Background:

Electripack is a woman owned small business that was established as an Ohio corporation in October of 2002. Our specialty is in packaging, kitting, assembly and wire harnessing for industrial and military applications. We source and inventory all parts that go into our kits and have several thousand items that are also sold as replenishment parts. Electripack receives volume discount pricing with such companies as Tyco, Packard and Deutsch. We have wire harnessing capabilities for harnesses, repair wires and test leads. We are up to date on all military packaging specs, including radio frequency bar codes.

## Key Personnel

### Jeanne Wright, CEO:

Ms. Wright previously owned a printing business that went from a start up in 1980 to over 5 million in sales when sold in 1988. Next she managed operations at a distribution company that grew from 5 million in 1992 to over 50 million in 2002, then left to create Electripack. Jeanne has extensive experience in managing fast growing businesses that focus on quality products, shipped on time, for total customer satisfaction.

### John Roellig, Quality & Training Manager:

Mr. Roellig has 11 years experience as a quality manager. He is trained in reading technical drawings, providing PPAP's and FMEA's, APQP, implementing ISO audits and maintaining quality standards for ISO/WHMA/IPC. John is responsible for 100% customer satisfaction with product quality.

### Kelli Jackowski, Account Manager:

Ms. Jackowski has over 12 years experience in creating excellent customer relationships. Her specialty is in communication, making sure that Electripack completely understands each customers needs.
